Comfortable in a dynamic and high-velocity environment.

Team Collaboration
Proficient in generating and sharing ideas with others.

Time Management & Project Execution
Skilled at prioritizing tasks and managing time effectively to meet deadlines and complete projects.

Experience

Sep 2023 - Nov 2023 Vancouver

Frontend Developer Intern
Dovetail Digital

As a Frontend Developer intern, I successfully transformed Figma designs into an interactive website, leveraging Next.js, TypeScript, React, and Material UI (MUI). I was responsible for developing a responsive landing page and a modal contact form that utilized Next.js server components and the SendGrid email API.

Key Responsibilities
- Engineered robust and responsive landing and login pages.
- Established integration between the GitLab repository and Vercel for efficient, streamlined deployment.
- Developed reusable, flexible Material UI (MUI) components in compliance with the brand's style guide, to boost efficiency for future projects.

2021 - 2022 Vancouver

Customer Service Member
Dexcom

Interacted directly with customers to resolve product issues, answer inquiries, and provide guidance, significantly enhancing customer satisfaction and loyalty. I was responsible for onboarding and off-boarding, managing accounts, and providing accurate information to customers.

Key Responsibilities
- Provided precise and helpful information to customers, improving their understanding and experience with the products.

2019 - 2021 Vancouver

Digital Analytics Specialist
Speed Shift Media

As a Digital Analytics Specialist, I managed user interactions on customer sites employing Google Tag Manager, JavaScript, and Google Analytics. I prepared and presented performance reports through Google Data Studio and internal platforms while designing and maintaining digital display ads that adhered to OEM guidelines.

Key Responsibilities
- Implemented tools such as Google Tag Manager and JavaScript to capture and manage user interactions on diverse customer sites.
- Employed Google Data Studio and internal systems to prepare and present performance reports.
- Designed and maintained digital display advertisements according to OEM guidelines.
